Dear Mr. Medema:

This letter is in response to your application for permission to construct the Advanced Mixed Waste Treatment Facility, AM-BN-L-471, dated October 9, 1998. This application replaces the earlier submittal dated April 14, 1998. My staff has reviewed the information provided. Based on that review I have determined that the proposed project, if properly constructed and operated, will not cause emissions to exceed the standards of Title 40 Code of Federal Regulations (40 C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08, I hereby grant approval of construction for the project as described.

If you have any questions regarding this approval, please call me at (206) 553-2963, or Jerry Leitch at (206) 553-7660 for technical matters.

Sincerely,

  
 for Anita J. Frankel, Director  
 Office of Air Quality
